

CSA1522: CLOUD COMPUTING AND BIG DATA ANALYTICS

NAME:S BLESSIKA

REG NO: 192525251

EXP NO1: Flight Reservation System

Aim:

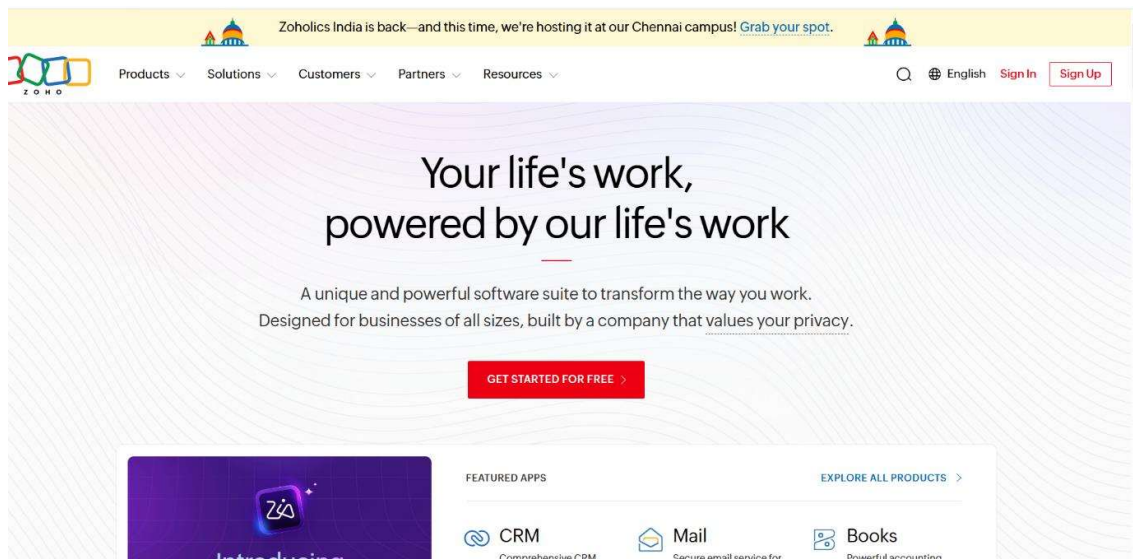

To develop a cloud-based Flight Reservation System using Zoho Creator to demonstrate SaaS.

Steps:

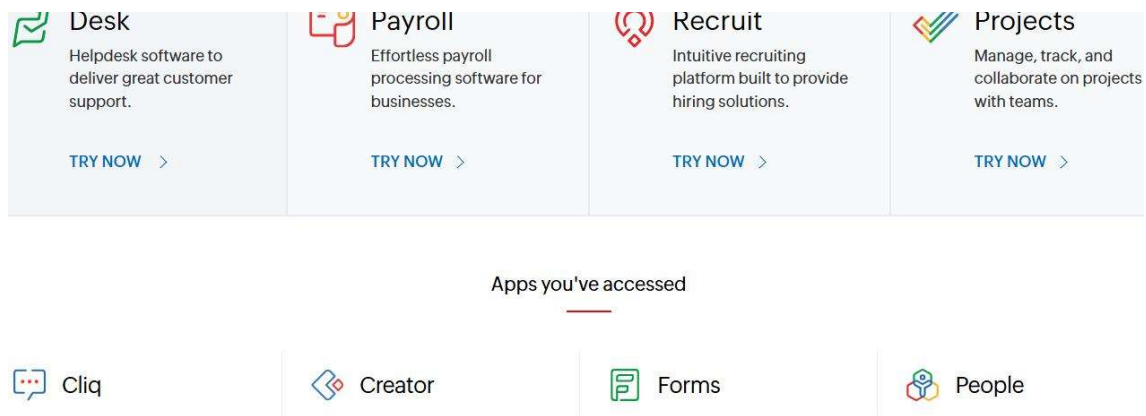

1. Log in to Zoho Creator and click Create New Application.
2. Create a Flight Reservation form.
3. Add fields: From, To, Departure Date, Return Date, Travelers, Class, Fare Type, Flight Type, and Passenger Name.
4. Save the form and create a report to display reservation records.
5. Enter sample data, verify the records, and publish the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

EXP NO 2: Property Buying & Rental System

Aim:

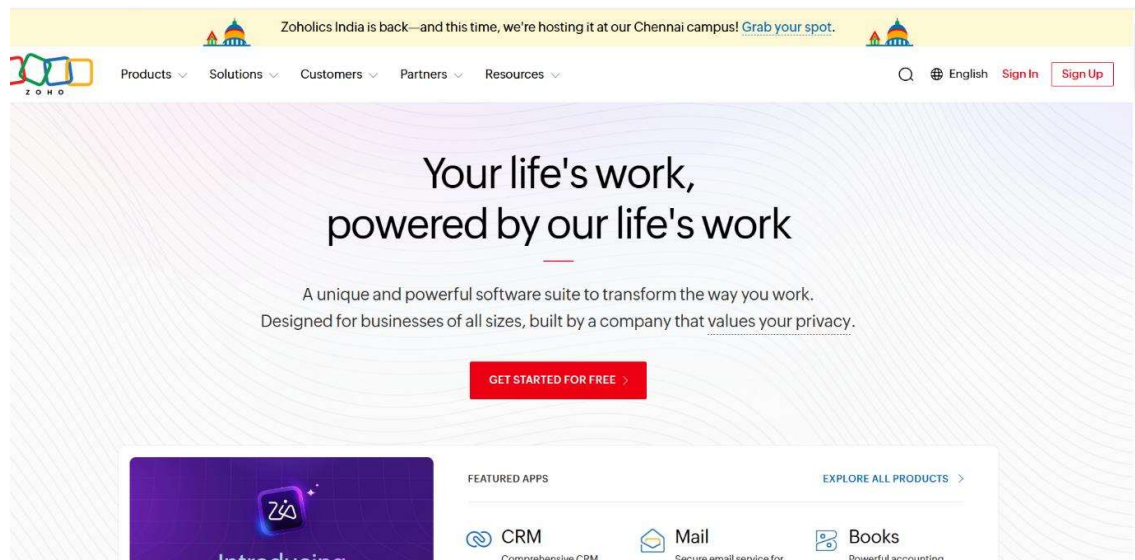

To create a cloud-based Property Buying & Rental System using Zoho Creator.

Steps:

1. Create a new application in Zoho Creator.
2. Create a Property Details form.
3. Add fields: Buy/Rent, Property Type, Area, Location, Price, Rental Agreement, and Owner Details.
4. Create reports to view and search property records.
5. Test the application by entering sample property details.

Implemented

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 4: Enter Student Attendance System as the application name and click Create Application.

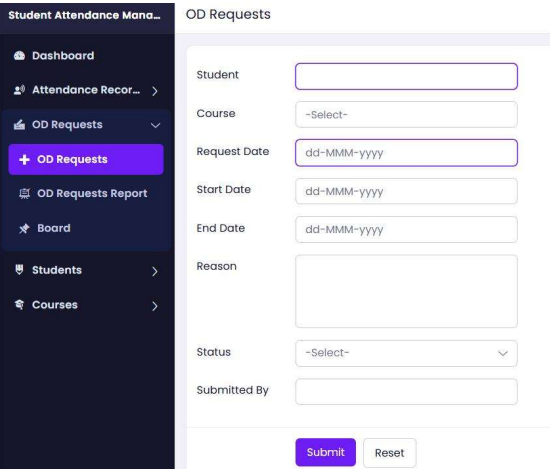

The screenshot shows a web interface for creating a new application. At the top, there is a logo consisting of four circles (two blue, two white) arranged in a 2x2 grid, with a plus sign below them. Below the logo, the text "Create from scratch" is displayed. The main form area has a light purple background. It contains a label "Application Name" with a red asterisk, followed by a text input field containing "Student Attendance System". Below this is a checkbox labeled "Enable Environment" with a link "Learn More" to its right. At the bottom of the form is a large blue button labeled "Create Application".

Step 5: Add fields: Student Name, Course, Date, Present/Absent, Attendance Percentage, and OD Request.

The screenshot shows the "Attendance Records" form within a sidebar menu titled "Student Attendance Mana...". The sidebar has a dark blue background with white text for the menu items: "Dashboard", "Attendance Recor...", "Attendance Records" (highlighted with a purple bar and a plus icon), "Attendance Record...", "Board", "OD Requests", "Students", and "Courses". The main form area has a light purple header "Attendance Records". It contains several input fields: "Student" (text), "Course" (dropdown menu showing "-Select-"), "Date" (text with a date picker icon and format "dd-MMM-yyyy"), "Status" (dropdown menu showing "-Select-"), and "Remarks" (text area). At the bottom are two buttons: "Submit" (purple) and "Reset" (white).

The screenshot shows the "OD Requests" form within the same sidebar menu. The sidebar menu items are: "Dashboard", "Attendance Recor...", "OD Requests" (highlighted with a purple bar and a plus icon), "OD Requests Report", "Board", "Students", and "Courses". The main form area has a light purple header "OD Requests". It contains several input fields: "Student" (text), "Course" (dropdown menu showing "-Select-"), "Request Date" (text with a date picker icon and format "dd-MMM-yyyy"), "Start Date" (text with a date picker icon and format "dd-MMM-yyyy"), "End Date" (text with a date picker icon and format "dd-MMM-yyyy"), "Reason" (text area), "Status" (dropdown menu showing "-Select-"), and "Submitted By" (text). At the bottom are two buttons: "Submit" (purple) and "Reset" (white).

STEP 6: Save the form Student Attendance System, enter sample booking records, and view them in the System.

EXP NO 8: Student Counselling System

Aim:

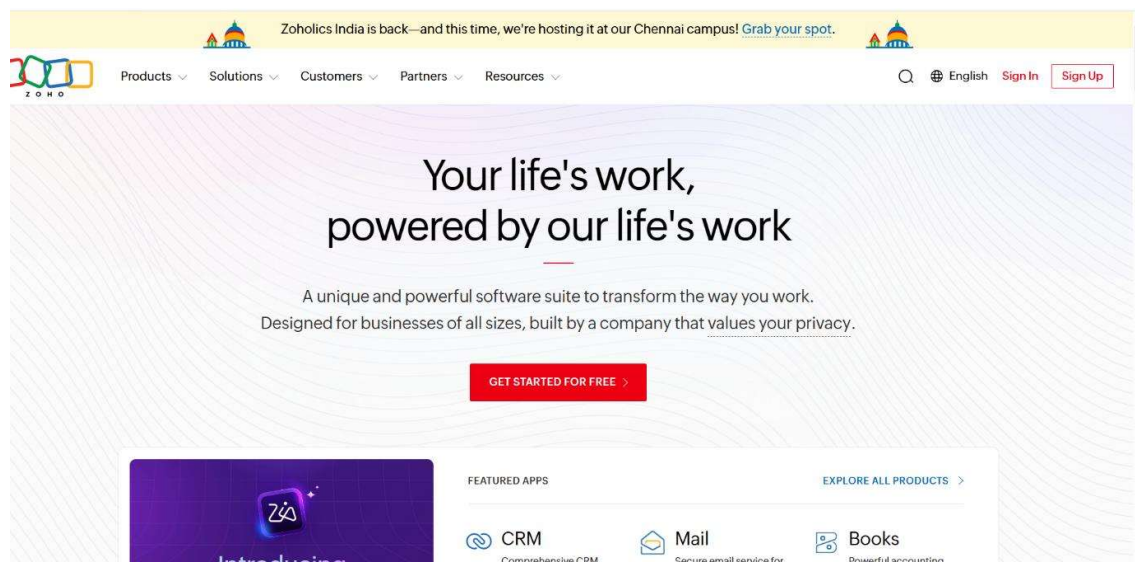

To create a cloud-based Student Counselling System using Zoho Creator.

Steps:

1. Create a new application.
2. Create a Student Counselling form.
3. Add fields: Student Name, Age, Address, Phone Number, Percentage, Year of Passing, and Domain Interest.
4. Create reports to view counselling information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

 Desk Helpdesk software to deliver great customer support. TRY NOW >	 Payroll Effortless payroll processing software for businesses. TRY NOW >	 Recruit Intuitive recruiting platform built to provide hiring solutions. TRY NOW >	 Projects Manage, track, and collaborate on projects with teams. TRY NOW >

STEP 3: Click Create New Application and select Create from Scratch

Create New Application

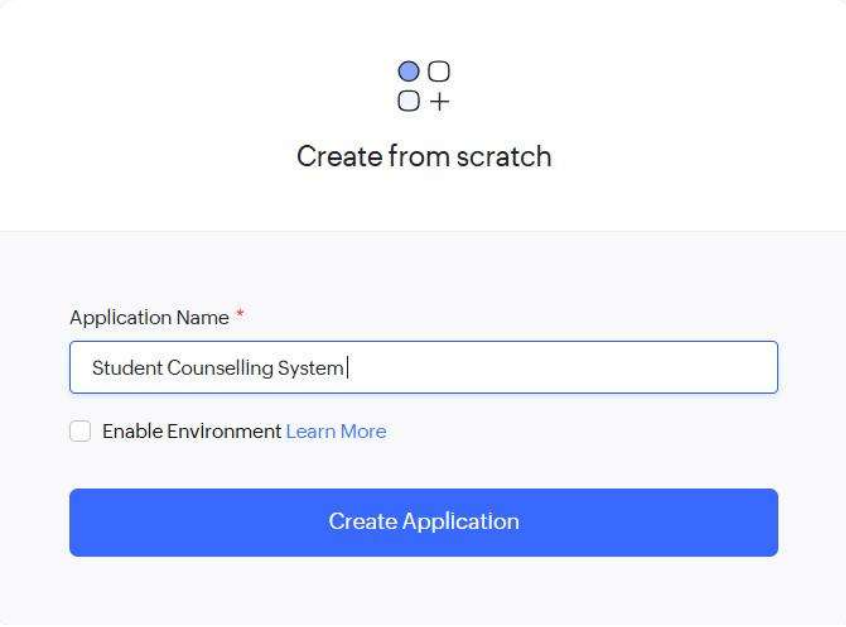

**Create using Zia**
Build a functional application effortlessly using GenAI.
[Create](#)

**Create from scratch**
Create a new application for your business needs.
[Create](#)

**Create from gallery**
Pick a pre-built application that suits your requirement.
[Pick](#)

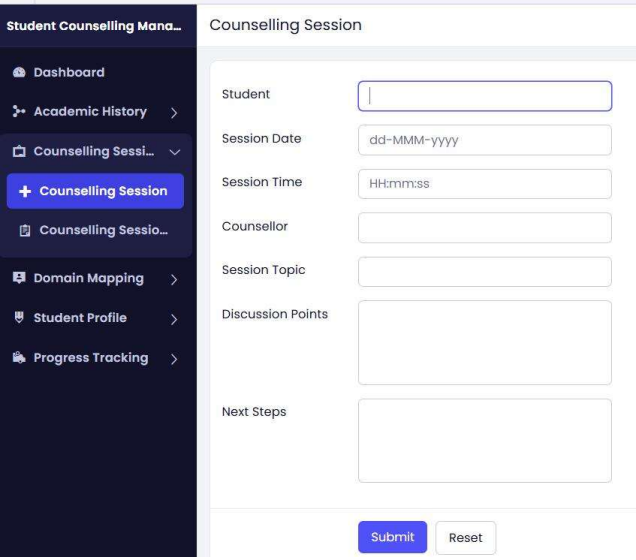

**Import from file**
Import your existing data to create an application.
[Import](#)

STEP 4: Enter Student Counselling System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' interface. At the top, there is a logo consisting of four circles (two blue, two white) and a plus sign. Below the logo, the text 'Create from scratch' is displayed. The main form area has a light purple background. It contains a label 'Application Name' with a red asterisk, followed by a text input field containing 'Student Counselling System'. Below this is a checkbox labeled 'Enable Environment' with a link 'Learn More'. At the bottom of the form is a large blue button labeled 'Create Application'.

Step 5: Add fields: Student Name, Age, Address, Phone Number, Percentage, Year of Passing, and Domain Interest.

The screenshot shows a web application interface for 'Student Counselling Management'. On the left is a dark sidebar with a menu containing: 'Dashboard', 'Academic History', 'Counselling Session' (expanded), 'Counselling Session...', 'Domain Mapping', 'Student Profile', and 'Progress Tracking'. The main content area is titled 'Counselling Session' and contains a form with the following fields: 'Student' (text input), 'Session Date' (date input with mask 'dd-MMM-yyyy'), 'Session Time' (time input with mask 'HH:mm:ss'), 'Counsellor' (text input), 'Session Topic' (text input), 'Discussion Points' (text area), and 'Next Steps' (text area). At the bottom of the form are two buttons: 'Submit' and 'Reset'.

Step 7: The Software has Been Created

EXP NO 9: Hospital Information System

Aim:

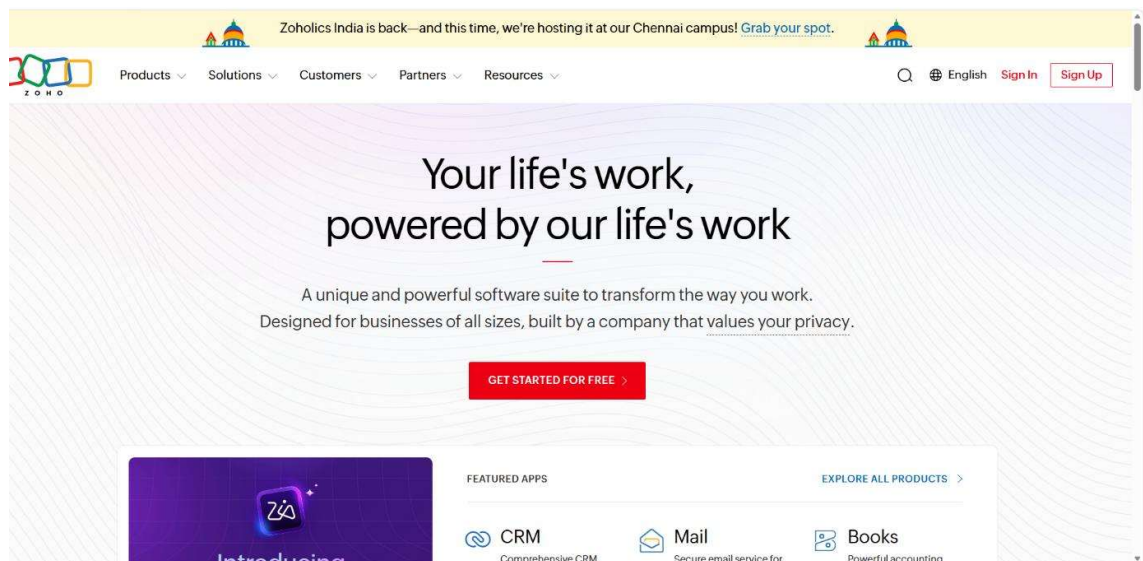

To create a cloud-based Hospital Information System using Zoho Creator.

Steps:

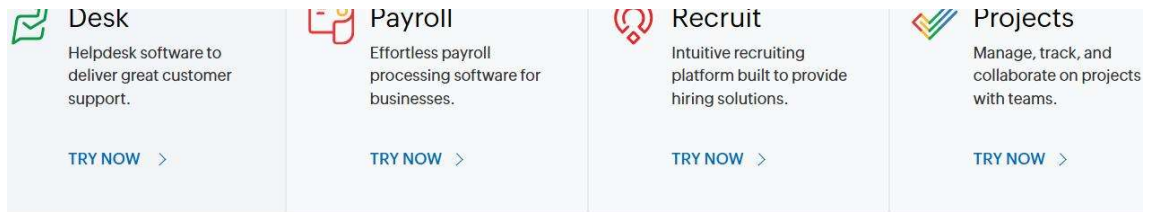

1. Create a new application.
2. Create a **Hospital Information** form.
3. Add fields: Patient Name, Age, Address, Phone Number, Email, Attender Name, Attender Phone, Doctor Name, and Disease.
4. Create reports to view patient information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

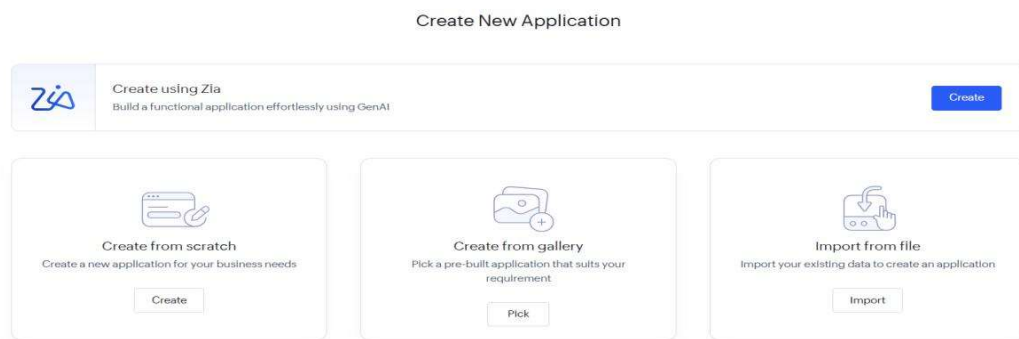

STEP 2: Login to your Zoho account and open Zoho Creator

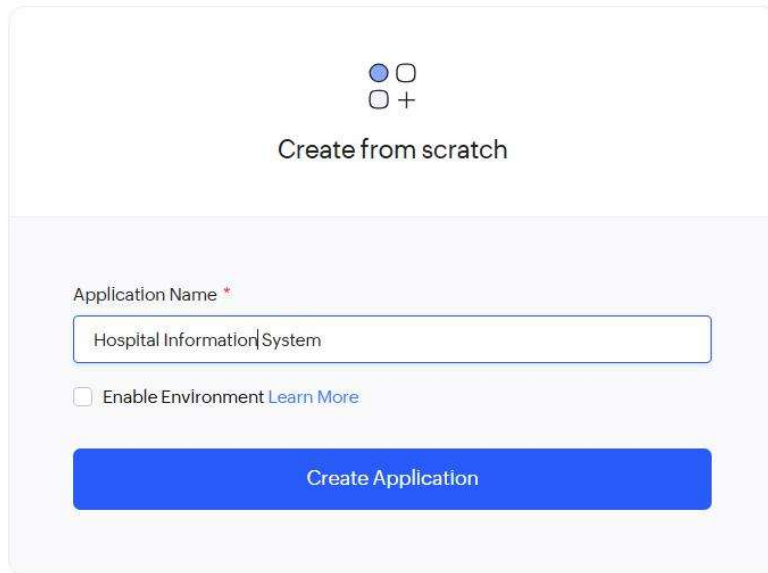

Apps you've accessed

STEP 3: Click Create New Application and select Create from Scratch

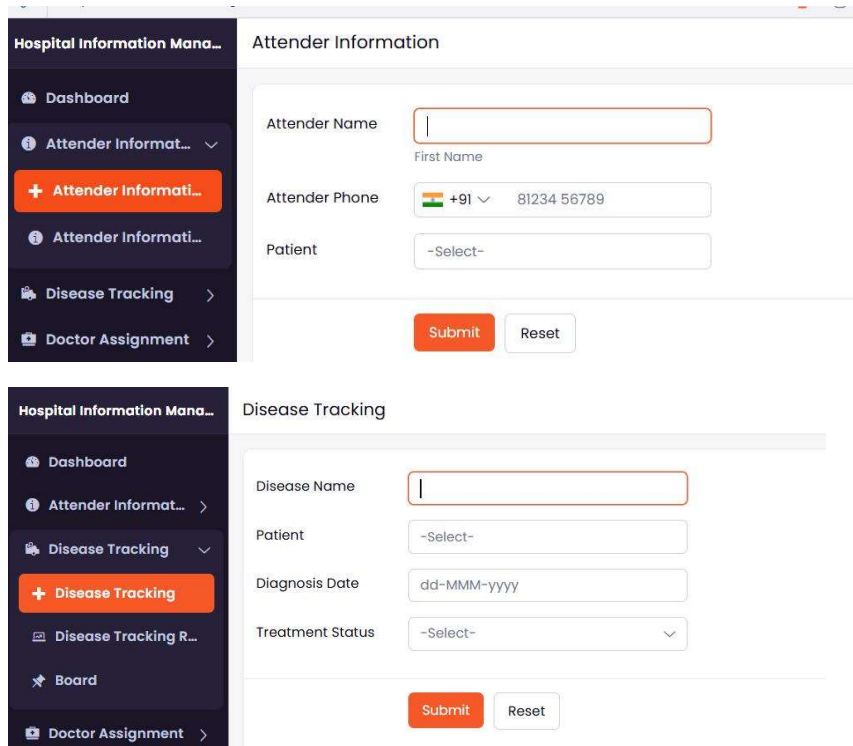

STEP 4: Enter Hospital Information System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' form. At the top, there is a logo consisting of four squares (two blue, two white) and a plus sign. Below the logo, the text 'Create from scratch' is centered. The form has a light purple background. It contains a text input field for 'Application Name' with the value 'Hospital Information System'. Below this is a checkbox labeled 'Enable Environment' with a link 'Learn More'. At the bottom is a large blue button labeled 'Create Application'.

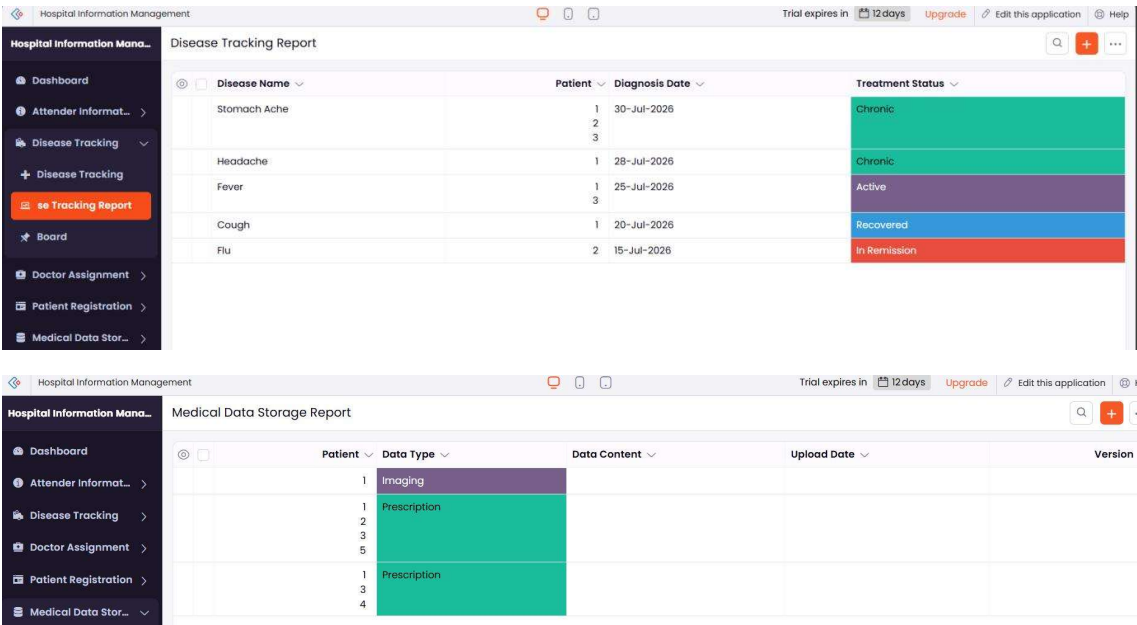

Step 5: Add fields: Patient Name, Age, Address, Phone Number, Email, Attender Name, Attender Phone, Doctor Name, and Disease

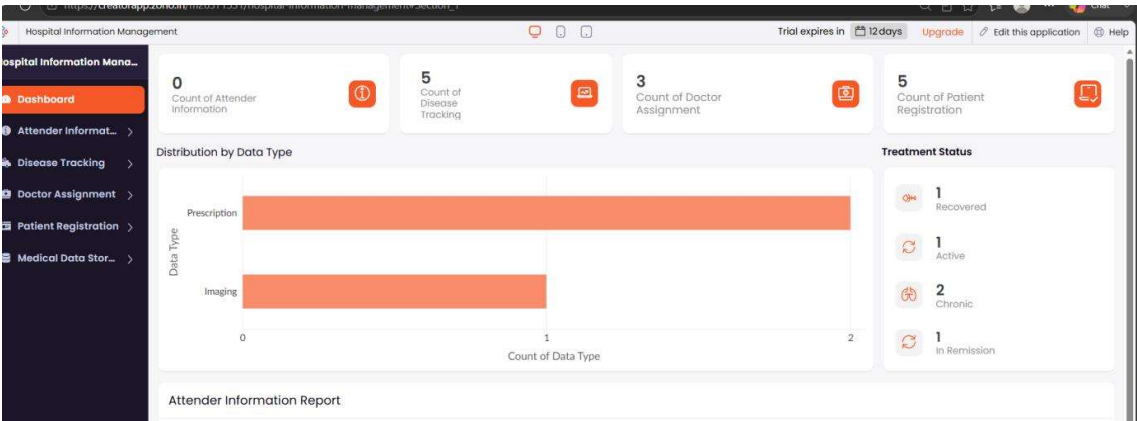

The first screenshot shows the 'Attender Information' form. It has a dark sidebar with the title 'Hospital Information Mana...' and menu items: 'Dashboard', 'Attender Informat...', '+ Attender Informati...', 'Attender Informati...', 'Disease Tracking', and 'Doctor Assignment'. The main form area is titled 'Attender Information' and contains fields for 'Attender Name' (with a sub-label 'First Name'), 'Attender Phone' (with a dropdown for '+91' and a text input for '81234 56789'), and 'Patient' (a dropdown menu with '-Select-'). At the bottom are 'Submit' and 'Reset' buttons.

The second screenshot shows the 'Disease Tracking' form. It has the same sidebar, but the 'Disease Tracking' menu item is highlighted. The main form area is titled 'Disease Tracking' and contains fields for 'Disease Name', 'Patient' (dropdown with '-Select-'), 'Diagnosis Date' (text input with placeholder 'dd-MMM-yyyy'), and 'Treatment Status' (dropdown menu with '-Select-'). At the bottom are 'Submit' and 'Reset' buttons.

STEP 6: Save the form Hospital Information Management, enter sample booking records, and view them in the System.

Step 7: The Software has Been Created

EXP NO 10: Student Information Management

Aim:

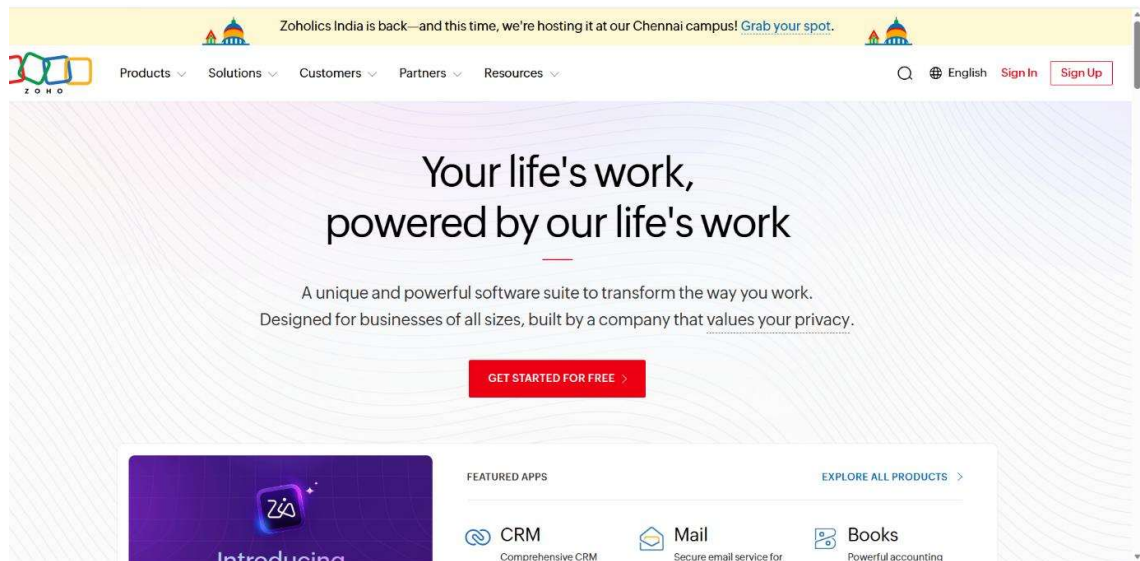

To create a cloud-based Student Information System using Zoho Creator.

Steps:

1. Create a new application.
2. Create a **Student Information** form.
3. Add fields: Student Name, Register Number, Address, Phone Number, Age, Course, Grade, Attendance Report, Progress Report, and Semester Mark Sheet.
4. Create reports to view student information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

 Desk Helpdesk software to deliver great customer support. TRY NOW >	 Payroll Effortless payroll processing software for businesses. STEP 4: Enter Student Information System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' interface. At the top, there are two icons: a blue circle with a white dot inside, and a white circle with a plus sign inside. Below these icons is the text 'Create from scratch'. The main form area has a label 'Application Name *' above a text input field containing 'Student Information Management'. Below the input field is a checkbox labeled 'Enable Environment' with a link 'Learn More' next to it. At the bottom of the form is a large blue button labeled 'Create Application'.

Step 5: Add fields: Student Name, Register Number, Address, Phone Number, Age, Course, Grade, Attendance Report, Progress Report, and Semester Mark Sheet

The screenshot shows the 'Attendance Report' form. On the left is a dark sidebar with the title 'Student Information Mana...' and a list of menu items: 'Dashboard', 'Grade Record', 'Attendance Report' (expanded), 'Attendance Report...', 'Board', 'Course Enrollment', 'Student Profile', and 'Progress Report'. The main form area has the title 'Attendance Report' and contains the following fields: 'Student' (text input), 'Date' (text input with placeholder 'dd-MMM-yyyy'), 'Status' (dropdown menu with '-Select-' and a downward arrow), 'Hours Present' (text input with placeholder '#####'), and 'Remarks' (text area). At the bottom are two buttons: 'Submit' (blue) and 'Reset' (white).

The screenshot shows the 'Course Enrollment' form. On the left is a dark sidebar with the title 'Student Information Mana...' and a list of menu items: 'Dashboard', 'Grade Record', 'Attendance Report', 'Course Enrollment' (expanded), 'Course Enrollment ...', and 'Board'. The main form area has the title 'Course Enrollment' and contains the following fields: 'Course Name' (text input), 'Student' (dropdown menu with '-Select-'), 'Enrollment Date' (text input with placeholder 'dd-MMM-yyyy'), and 'Status' (dropdown menu with '-Select-' and a downward arrow). At the bottom are two buttons: 'Submit' (blue) and 'Reset' (white).
